

Water Splash, Inc. is an innovative water playground equipment manufacturer founded in 2003 by a team of engineers who put their skills at the heart of their enterprise, with an emphasis on continuous product improvement through research and development. Our team has a total of 15 years experience in the design and manufacture of splash park equipment. We provide products for splash pads, spray parks/spray grounds and swimming pools. We have a strong engineering and customer care group that will provide the technical support you need at every stage of your project. Our durable and reliable products come with timely and personalized customer service, and they're factory-assembled and -tested to reduce your installation costs. Backed by some of the strongest product warranties in the industry and an unparalleled safety record, Water Splash is rapidly becoming the benchmark for top-quality splash pad products.

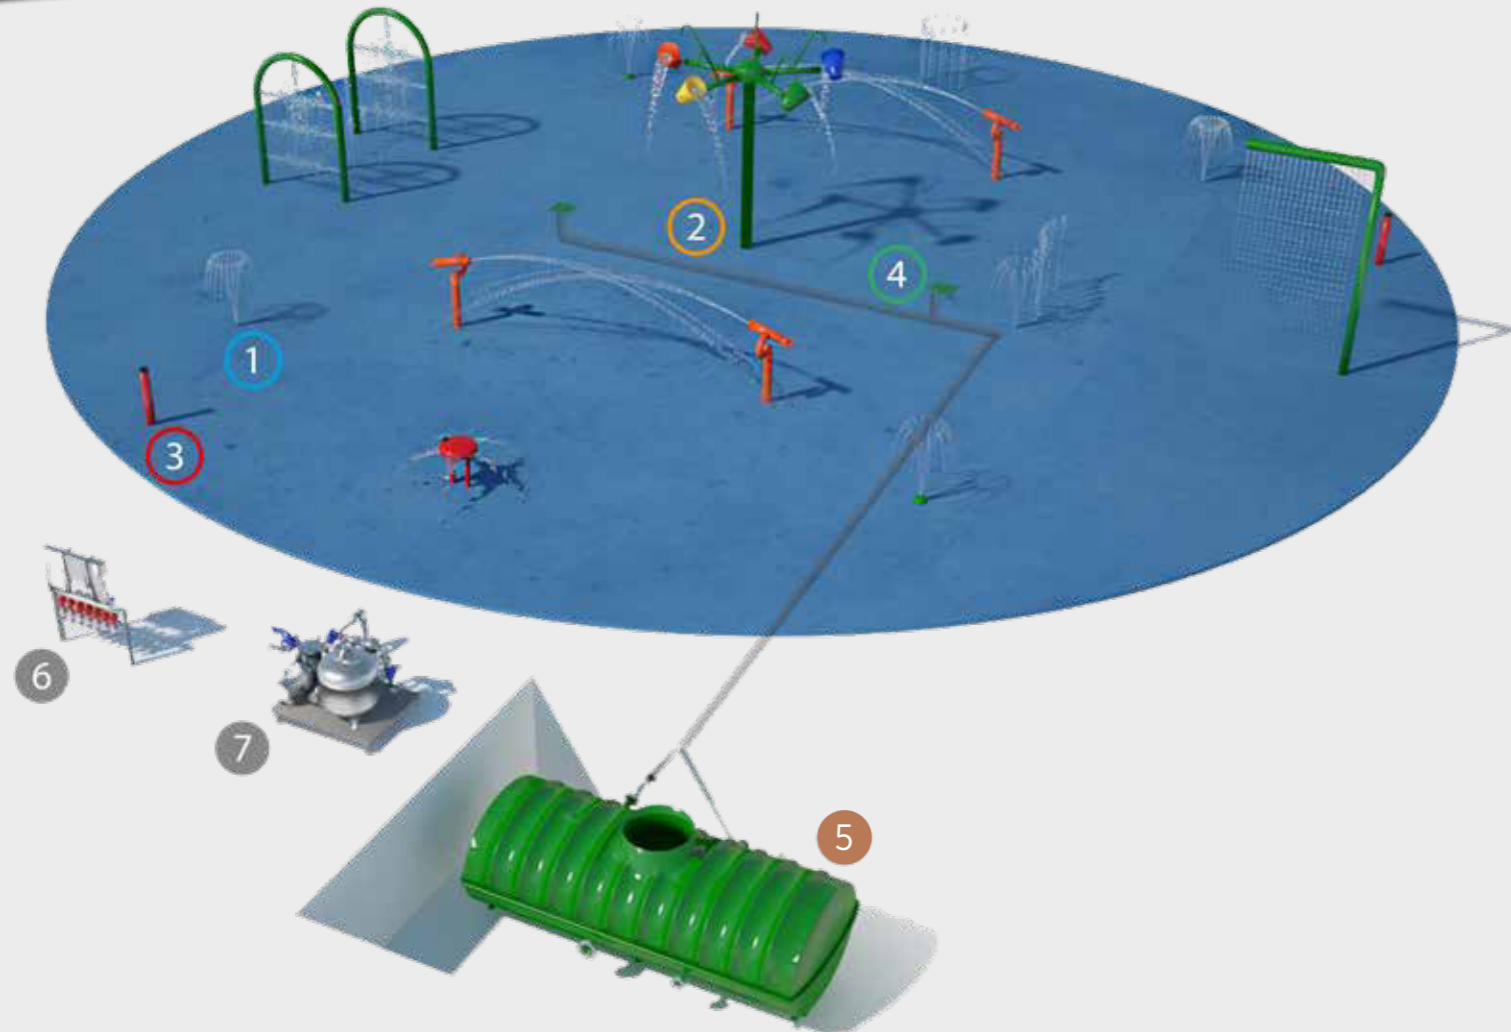

Water Splash products are designed and manufactured to meet two basic criteria; fun and safety. Only the finest materials are used in the construction process, to ensure that maximum safeguards are incorporated into every design. To this end, all manufacturing and tooling takes place in-house, and all products conform to or exceed ASTM F1487, ASTM F2461, SS 457, CSA Z614 and EN 1176 standards. Our in-house engineering and manufacturing expertise also provide our customers with another advantage: complete customization, to suit any and all of their needs.

- **All metal products are made of 304/304L stainless steel material.**
- **Nozzles, water openings and sprayers are made of C360 brass material.**
- **Water Splash provides special tamper-resistant tools. All products are offered with winter caps.**
- **The painted finish of all equipment is a high-quality, UV-resistant powder coating of oven-cured glossy polyester, with stabilizers and chlorinated water resistance.**
- **Spray nozzles are recessed, welding marks are invisible (buffed and polished) and equipment is pressure tested for leakage.**
- **Products comply with the ADA (Americans with Disabilities Act) and CDA (Canadians with Disabilities Act).**

Splash Parks & Water Management System

01 *Inground Features*

02 *Above Ground Features*

03

Activator
Activator is a sensor unit; kids interact to activate play function of Splash Park. Activator sends a signal to Water Wise controller and play features starts functioning.

04

Drain
Drain is located in several location of splash park in order to collect all water in play area to storage tank.

05

Storage Tank
Storage tank is a container where drain from Splash Park connects to. Water stored in constantly filtered by Water Management System.

06

Water Wise Controller & Manifold
Water Wise Controller is brain of Splash Park, and controls Water Management System components and manifold valves. Manifold is the connection to each play equipment, and operates on/off linked to Water Wise controller.

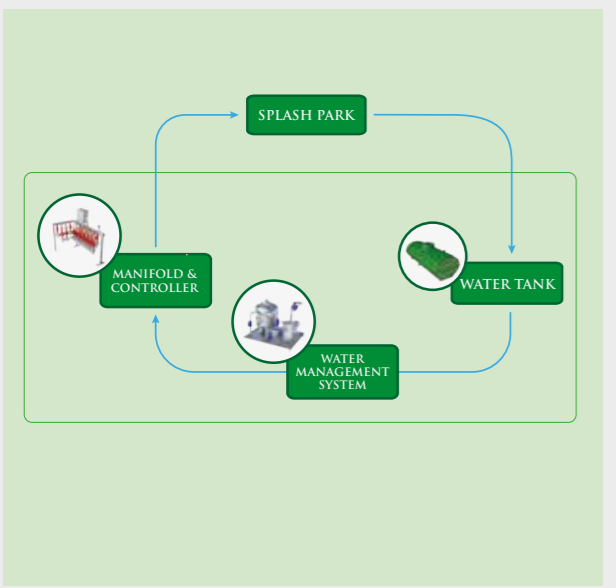

07

Water Management System (WMS)
Factory assembled and tested, skid mounted Water Management System (WMS) is an engineered system for Splash and Aqua Parks. Each system is unique and meets local health code of project location. Water stored in holding tank is constantly filtered by WMS.

GREY WATER SYSTEM

- Professional 3D visualization and CAD drawings of park layout
- Detailed budget planning,
- Project planning with milestones,
- Committed team for customer support

- **INSTALLATION SOLUTIONS WE OFFER:**
- Turn-key design build,
- Technical installation including plumbing and electrical connection
- Full or partial project supervision
- System start-up / winterization services

Hotels & Resorts

Attract family-oriented customers, increase bookings and become travelers' first choice!

Are you considering updating your facility? Do you have extra space for kids' entertainment? There's nothing COOLER than a splash park for hotels and resorts!

Urban Spaces & Community Parks

Nothing brings people together like water and fun! Seating and shade facilities offer parents an area to relax while their children enjoy the splash park.

Family, friends and neighbors can enjoy a safe and fun communal area while enjoying the outdoors.

Water & Amusements Parks

You don't have to spend a fortune to punch up your facility - just add a splash park with a zero-depth solution. It's sure to bring in new customers, such as families with young children.

Create an open space the whole family can enjoy. A splash park can give your old pool a makeover, and bump up the usage of your facility.

Sites & Residences

Condominiums, housing complexes and residences can be livened up by providing children of all ages with a dynamic play area. A fully programmable splash park can be scheduled to open early and shut off late without the need for supervision.

Parents can get some much-needed rest while their children enjoy the safety and fun of a splash park.
